

JingZhun Machinery

Characteristics :

Very compact size, lower weight

Sufficient torque at low speed, max torque at min speed

Lower power consumption, typical one-15W

High visibility of alarm light

Yarn Clip and bottom stop motion can be installed for input and output of yarn feeding can

Specification :

Voltage : DC 60V

Yarn Diameter Allowance : 20D-1000D

Diameter of yarn storage barrel : 50mm

Weight : 1.8kg

Dimension : 245*80*110mm

				
<p>Fixed by F Hanger, easily adjusted for multi-angle yarn feeding</p>	<p>Vertical fixing</p>	<p>Yarn Storage Sensor</p>	<p>Yarn Break Sensor</p>	<p>Feeding Speed Sensor</p>

				
<p>Yarn Feeding/Breaking Sensor</p>	<p>Input yarn sensor</p>	<p>Fixed yarn separation 1mm/2mm</p>	<p>Tension Adjustable</p>	<p>CAN data transmission</p>
