

Electronic Yarn Storage Feeder

JZDS-2

Voltage : DC57V

Yarn Diameter range : 20D-1000D

Storage Drum diameter : 50mm

Weight : 1.8kg

Size : 245*80*110mm

Characteristics :

Compact dimension, Lower weight
Lower power consumption,
higher machine efficiency, fewer fabric faults
High visibility of alarm light
Suitable for wide range of yarn
Installation position: vertical, inclined

Easily adjusted for multi-angle

Yarn feeding tensiometer

Output of yarn & yarn break sensor

CAN data communication

Yarn separation 1mm/2mm

Yarn storage sensor

Yarn break sensor

Tension adjustable
